

I'LL NEVER KNOW - ELVIS PRESLEY  
(Words and music by Karger / Wayne / Weisman)

How many stars are in the sky, I'll never know  
What fire lights a firefly, I'll never know

What happens to this heart of mine each time you hold my hand  
Sometimes the things we love the most  
We never understand  
I never thought these eyes would see an angel's glow  
What miracle brought you to me, I'll never know

What happens to this heart of mine each time you hold my hand  
Sometimes the things we love the most  
We never understand  
I never thought these eyes would see an angel's glow  
What miracle brought you to me, I'll never know  
What miracle brought you to me, I'll never know
