

TONIGHT'S ALL RIGHT FOR LOVE - ELVIS PRESLEY
(Words and music by Wayne - Silver - Lilly)

Hold me tight the moon's so bright
Tonight the night is right for love
As one by one the stars appear
I'll hold you oh so close my dear
This could be that magic kiss
That night of bliss we've waited for
Oh we could fly right up to the sky
How real it all seems to me
A mid summer night dream to me
Can't you see that tonight's all right for love
Oh we could fly right up to the sky
How real it all seems to me
A mid summer night dream to me
Can't you see that tonight's all right for love
