## Give Me Just a Little More Time

Give Me Just a Little More Time

I'm busy every day as I travel on my way  
To the city far beyond the sky  
And there is not a doubt that time is running out  
And the harvest time is drawing nigh

Gonna need a little time to gather in the grain  
Before I leave this world behind  
I'm ready any time when you call me, Lord  
But give me just a little more time

Give me just a little more time,  
Give me just a little more time  
So many precious souls are lost in sin  
So many may be left behind

I've got a lot of things I need to do  
Before I leave this earthly clime  
I'm ready any time when you call me, Lord  
But give me just a little more time

I need a little time to labor for my Lord  
Before the final judgment day  
I need a little time to preach the holy word  
To the sinner man along life's way

Every moment that I have to tarry here below  
I will try to make my lamp to shine  
I'm ready when you call me, Lord,  
But give me just a little more time

Give me just a little more time, Lord  
Give me just a little more time  
So many precious souls are lost in sin  
So many may be left behind

I've got a lot of things I need to do  
Before I leave this earthly clime  
I'm ready any time when you call me, Lord  
But give me just a little more time.
