Let Onion Be

Let Onion Be
(Bruce Gewirtz)

Come all you who would be flatter
Raise your forks and pass the platter
For to live is to grow fatter
While we are together.

cho: Let onions be in all our stews
Let all our stews be made with wine
We show them all just how to dine
We'll end each meal with chocolate.

Right fol de rol de ri too ra li do
Right fol de rol de ri too ra li do
Right fol de rol de ri too ra li do
While we are together.

Eating and drinking are quite charming
Cakes and ice cream there's no harm in
All these things we take delight in
While we are together.

Grab the platter as it passes
Join with us at all repasses
Those who diet are but asses
While we are together.
