Love is a Merry Go Round

Love is a Merry Go Round
(Tom Ghent)

If only words could say
All that I feel today
Maybe then you'd see things my way
We built this wall of time
Between your world and mine
Now there's only one thing left to say

That love is a merry go round
Love can bring you up baby
Love's gonna shoot you down
Gonna take your head and spin it round and round
And love is music, come dance to the sound
Round and round, dance to the sound

You've gotta find the good in everything
Let it teach your heart to sing
Everyone has at least one note to play
When you walk beneath a cloud
You've gotta lift up your voice aloud
Sing out and scare your fears away

For love is a merry go round
Love can bring you up baby
Love's gonna shoot you down
Gonna take your head and spin it round and round
And love is music, come dance to the sound
Round and round, dance to the sound

Don't throw away your dreams
Nothings bad as it may seem
They'll always be another day
For when this simple rhyme
Has been lost to time
Maybe we'll just turn around and say

That love is a merry go round
Love can bring you up baby
Love's gonna shoot you down
Gonna take your head and spin it round and round
And love is music, come dance to the sound
Round and round, dance to the sound
