Over and Over Again

Over and Over Again

by an englishwoman that Bob Walser met/knows?

1. Many's the time I heard the bells chime,
Ring the people to pray on a sunny summer's day
Bless is the meek for the peace they seek
Over and over again

Chorus:

Over again, oh over again,
Oh say it, pray it, over again,
Over again, oh over again, oh peace must come

2. From way out in space the earth is our place
a pin point of light who's people still fight
Divide to shake hands, they make lessons and plans
To do battle all over again

3. Is it really so hard to know who's the god,
And admit to the greed, of more than we need,
The words on the wall are familiar to all,
I've been reading them over again.

(repeat first verse)
