## Save the Best for Last

Save the Best for Last  
(Tom Hodge)

People round this town have been here a while  
They've been friends long enough to say hello with a smile  
Though it feels like coming home is still weeks away  
Me and this country band have come here to play

CHO: Play a sweet one for the encore and let's soften the pace  
Pass my hat to the crowd while you tune up your bass  
Slow the tempo down, Charlie, I'll take the mike from the stand  
We'll save the best for the last, to send 'em home hand in hand

I'm sorry to hear Fred left us last year  
It's so good to see your face, your smile is so clear  
I remember how he'd waltz you across the ballroom  
Would you dance with an old friend in the light of this moon?

These songs keep me going, and I'm still amazed  
At the new faces mixed with those mellowed with age  
Oh, for thirty-odd years I've rolled over this land  
Me and old Charlie and the rest of the band

MC
