Shackles and Chains

Shackles and Chains
(Jimmie Davis)

```
    G                C
On a long, lonesome journey I'm going
D7               G
Now darling please don't you cry
                 C
For in shackles and chains they will take me
    D7          G
To a prison to stay until I die.

(Chorus)
    G
And at night through the bars
    C
I will gaze at the stars
    D7             G
And I long for your kisses in vain
                 C      Am
A piece of stone I will use for my pillow

D7           G
While I'm sleeping in shackles and chains.
```

Put your arm through the bars once my darling
Let me kiss those sweet lips that I love best
For in heartaches you're my consolation
And in misery my haven of rest.
