When It's Winter in the Kootenays

When It's Winter in the Kootenays

When it's winter in the Kootenays
And your water pipes are froze;
And the weatherman says, "Colder!"
And the bitter northwind blows;
We'll be thinking of the summer
When it's ninety in the shade
Right now it keeps us guessing
How the coal bills will be paid!

From the P.J. Thomas Tape Collection

tune: Springtime in the Rockies
