

## The 'V' Sign Song-1944

The 'V' Sign Song-1944

Regal Zonophone MR3736 Sievier

Let the clouds roll by and the clear blue sky  
Bring the sunshine back again.  
Raise your voice aloud and be mighty proud  
To sing a Victory refrain.

There's a V formation in the sky  
There's a V formation flying by  
There's a V on land and a V on sea  
A great big V telling V for victory  
There's a V formation o'er the foam  
And another one over Rome  
But democracy can never be free  
Till the boys come marching home.

As the days emerge, we are on the verge  
Of the most exciting news.  
As a single voice let us all rejoice,  
Goodbye to 1940 blues.

There's a V sign everywhere we go,  
Winston Churchill started it we know.  
There's a V for you and a V for me,  
The V sign sent by the B.B.C.  
There's a V sign ready for release,  
If our efforts we increase  
And we'll shout hurray that wonderful day  
When the V sign signals peace.

There's a V formation in the sky  
There's a V formation flying by  
There's a V on land and a V on sea  
A great big V spelling V for victory.  
There's a V formation o'er the foam  
And another one over Rome  
But democracy can never be free  
Till the boys come marching home.
