

**Forever's Here To Stay**

She stepped out of the Taxi with a suitcase in her hand

C G7

And a hanging bag too full for her to hold

C F

I felt her body tremble as I took her in my arms

C G7 C

And she whispered don't ever let me go

F C

Then I watched her hang her dresses up and close the closet door

F C G7

And I watched her put her satin things away

C F

Somehow now I know she won't be leaving anymore

C G7 C

I do believe forever's here to stay

F

It's good to hear her foot steps just walking down the hall

C G7

Lord I wondered would I hear those sounds again

C F

We're picking up the pieces and putting away the past

C G7 C

We've got a lot of broken dreams to mend

repeat #2

G7 C

I do believe forever's here to stay
