

## **Belfast**

**G Dm G F C**  
Of all the places I have been there's  
**G**  
only one that fills my dream  
**G Dm G F**  
The place that lingers in my mind is  
**D**  
the town I've left behind  
**G C**  
I've been away now for too many years  
**D G D**  
I've read all the papers they've told me of your tears  
**G C**  
Though I've left you with a heart that's been torn  
**D G D**  
I'm coming home now to the place I was born

(Chorus)

**G Em C D**  
That's Belfast you call me when I  
**G D**  
am far away I think of thee  
**G Em C Am**  
Your black mountain Cave Hill , CityHall  
**D D7**  
Shaws bridge , River Lagan , I'm going  
**G D**  
home to them all

I'll meet friends and relations each one I'll embrace  
We'll pass round the pictures which time can't erase  
And it won't be long now 'till I see them all  
And I'll walk round the old streets and good  
times I'll recall

(Repeat Chorus)
