

My Love For You-crd  
by Les Pouliot

(C) My love for you is as (F) wild and true as the (G) wind o'er the (C) sea  
(Am) On winter nights so bleak and cold, (Dm) it always will re(Am)main  
(E) On summer eves, (F) when the breeze (G) whispers your (Am) name  
Like a (F) star of (G) this I'll be (Am) singing  
Oh with (F) you I will (G) spend every (Am) evening  
(C) And my love like the (F) light above shall (C) shine eternal(G)ly  
At the (C) end of time, you'll (F) still be mine  
And (G) I'll be here with (Am) thee

My love for you is as wild and true as the wind o'er the tide  
As it travels 'round this whole wide world it gathers seeds of love  
Through desert sands, through snow and ice and high up above  
It gathers all the thoughts of lonely couples  
Until the cup of love overbubbles

And with a song it carries on through the skies of blue  
At the end of time, you'll still be mine and I'll be here with you

My love for you is as wild and true as the wind o'er the sea  
On winter nights so bleak and cold, it always will remain  
On summer eves, when the breeze whispers your name  
Like a star of this I'll be singing  
Oh if you ever spend every evening

And my love like the light above shall shine eternally  
At the end of time, you'll still be mine and I'll be here with thee
