

Love Me When You Can

I know you can't always be here with me
 You can't find what all you need with just one man
 You're hardly ever free and seldom lonely
 What I'm trying to say is, love me when you can

Chorus:

And don't feel like I expect you to be true to me
 Anytime you have to leave, I'll understand
 I don't have what all it takes to keep you happy
 What I'm tryin' to say is, love me when you can

Solo

(Merle speaking over the first 2 lines)

Let me be the one you sometimes come to
 You just barely have time for one more friend
 I'll be satisfied with any crumb you throw me
 What I'm tryin' to say is

Chorus
