

## SKID ROW

Well not long ago I was a happy man  
Money in my pocket with a ring on my hand  
My money's all gone and I'm feelin' low  
Standin' on the corner of Skid Row

I got an old John B. with the band wore through  
A great big hole in my blue suede shoe  
My wine's all gone and I need some more  
Standin' on the corner of Skid Row

Well people walk by me they stop and stare  
They giggle and snicker at the clothes I wear  
It's just another day like it always goes  
When you're hangin' around on Skid Row

Well my girl friend left me she don't want me no more  
We had a great big fight just a night before  
She said I got no class because she knows  
I've been hangin' around on Skid Row

Well people walk by me they stop and stare  
They giggle and snicker at the clothes I wear  
It's just another day like it always goes  
When you're hangin' around on Skid Row

Well people walk by and they stop and stare  
They giggle and they stickle at the clothes I wear  
It's just another day like it always goes  
When you're hangin' around on Skid Row
