

Sometimes I Dream

Album: Working in Tennessee

There's no magic way
For me to get over you
There's not much left to say
And not a thing left to do

Seldom I laugh
And seldom I ever cry
But there's times when I drink too much
And there's times when I lie

Sometimes I hate myself
And wish I could scream
Sometimes I give up on love
But sometimes I dream

Sometimes I dream
Looking out through my window
Speeding through the night
In a long limousine
There's a curse on my heart
And I'll never love again
Forever a lonely man
But sometimes I dream

[repeat chorus]
