

The Road To My Heart
Album: I Am What I Am

You're on the road
On the road to my heart.
Just follow that old love light,
That brings you back to me.
You've found the way
To make me want to stay.
Make me want to stay around
And never part.
You read my mind I guess,
You're good at bringin' out my best,
And you're on the road to my heart.
Hey, you read my mind I guess,
You're good at bringin' out my best.
And you're on the road to my heart.
You're on the road to my heart.
