GET ME A DOCTOR
Ralph McTell

Get me a doctor
Not one who'll give me dope
Just find me a good one
One who'll give me hope
One who'll stop me shaking
One to get me off
One to get me sleeping
And one to stop this cough.

Get me a doctor
There must be help at hand.
Find me a good one
One who'll understand
One to stop me sinking
Deeper into this well
One to stop me drinking
Spinning my way to hell.

Get me a doctor
One to wipe my brow
Get me a good one
One to show me how
Get me a doctor
I'm worried about my health
Get me a doctor
I can't heal myself.

Get me a doctor
One to heal this pain
Find me a good one
So I can start again
One to give me peace
One to make me calm
As if I was just laying
In my sweet baby's arms.
