Starlight, starbright, first star I see tonight,
I wish I may, I wish I might, have the wish I wish tonight.
That always may your love be shining bright
Just like that first star that I see tonight.

Star peace, green peace, surely the wars will cease,
Well find a way, therell come a day,
when people every where will say
Forever let us put an end to war
Upon this one world that were working for.

Star song, love song, I hope it wont be long
Before youre home and in my arms;
then well both be safe from harm
And then well know our love is shining bright
Just like that first star I see tonight.
