Come Kiss Me Love

Come Kiss Me Love

Come kiss me love, before you leave me
Come kiss the one you have betrayed
And when I'm dead, love, come and see me
And throw sweet flowers upon my grave

Once I loved you with all my heart and soul
I thought your love was all for me
Until a stranger came and caught your eye
I found you cared no more for me

Many's the night with you I've rambled
Many's the night with you I've lain
Thinking your love was mine forever
And now I find it was all in vain
