

On the good Ship I've got mine

(Tom Paxton)

Oh, don't you miss the boat, my friends  
Just let your little light shine  
They'll always cash your note, my friends  
On the good ship I've Got Mine  
She's coming down from New York town  
Oh look at her design  
We'll stand and watch our Mayor Koch  
Steer the good ship I've Got Mine

On the good ship I've Got Mine, my friends  
You always get your due  
With a nod and a wink you're in the pink  
With your friends so close to you-know-who  
On the good ship I've Got Mine, my friends  
Where money spins the wheels  
You're in the black, the inside track  
You're in on all the deals

The crew's all in the brig, of course  
And there they all repine  
They tried to steal the steering wheel  
On the good ship I've Got Mine  
The Mayor stands and waves his hands  
To folks across the brine  
His only tune is, How'm I doin'  
On the good ship I've Got Mine

She sails right down to City Hall  
Right up to the treasury sign  
Just dig right in, it ain't no sin  
On the good ship I've Got Mine  
Just spare some strokes for the common folks  
You meet along the line  
Be glad they're there, they paid your fare  
On the good ship I've Got Mine

On the good ship I've Got Mine ...

Just spare some strokes for the common folks  
You meet along the line  
Be glad they're there, they paid your fare  
On the good ship I've Got Mine
