

The Yanks With The Tanks (1918)
The Official Song of The U. S. Tank Corps
By Corporal JIMMIE SHEA

1.
England, France and Italy you all have done your share.
Belgium, youve done nobly too.
Just wait until we all get there.
They thought that we were giving in; they thought that we were thru.
But now they know America is sending help to you.
Well show them what that Yankee grit can do,
Well have them yelling Quits before were thru.

CHORUS [sung twice after each verse]
For the Yanks with the Tanks, will go thru the German ranks,
And roll right thru Berlin.
Well go over the top,
And were not going to stop
Un-til weve made those Boches all give in
When the captain gives the com-mand
Come on Treat Em Rough
Gee, wont it be grand for the Yanks with their tanks
will go thru the Ger-man ranks
And roll right thru Berlin.

2.
War is war, thats very true and men must do or die.
But men can fight their battles fair,
That is if they will on-ly try.
Our enemy across the sea have done their very best
To stop us with their poison gas but we have stood the test.
Were fighting fair and always have before
And still weve got a big surprise in store.
